

Non-Certified and Non-Participating Districts

A non-certified or non-participating district is not permitted to initiate any new exchanges until it achieves certification. However, districts that are currently non-certified may continue with exchanges that were planned prior to 1 July 2007, or that were planned when the district was certified or provisionally certified. Any district that plans an exchange with a district on this current list will lose its own certification status.

The following districts are currently non-certified or non-participating:
